

Personalised Dementia Support and Carer Respite

Small-group Club Days hosted in the welcoming homes of trained Hosts for people living with early-stage dementia or experiencing social isolation, with trusted respite for family carers

About Tapestry

**We believe every life is a rich tapestry,
woven from individual stories, experiences
and connections.**

Across Surrey and Sussex, our small-group Club Days are hosted in the welcoming homes of our fully trained Hosts, creating calm, intimate settings where guests feel at ease, valued and truly heard. While large community centres can feel overwhelming, keeping our groups small allows space for meaningful connection, confidence and friendship.

Our focus is always on ability, not inability - helping our guests to re-engage, rediscover their voices and live well with dementia while family carers gain trusted time to rest, work or simply breathe.

Our Tapestry Hosts

Our Hosts are at the heart of Tapestry Day Club. Many have lived experience of caring for someone with dementia, bringing empathy, understanding and reassurance to every Club Day.

Carefully selected for their warmth and compassion, Hosts provide a vital sense of continuity and trust for our guests. Over time, these relationships often extend beyond Club Days, with Hosts becoming a valued part of a guest's wider circle of support.

- ✓ All Hosts are Enhanced DBS checked and complete comprehensive training, including Emergency First Aid, Safeguarding Adults and Dementia Awareness. All Hosts undergo local council Food Hygiene inspections and food hygiene training.
- ✓ Host homes are fully risk assessed for safety and accessibility. All Host's cars are fully business-insured, and MOT-compliant.
- ✓ Hosts are provided with ongoing training, mentoring and support.

A Day with Tapestry

Tailored, Person-Centred Support

Our Hosts offer activities tailored specifically for guests - based on their individual interests, abilities and needs.

A Home-from-Home Setting

Being welcomed into a Host's family home, rather than a large community venue, creates a calm, familiar environment where our guests feel at ease, grow in confidence and experience less anxiety.

Small Groups

Groups are limited to no more than six guests, allowing time for meaningful friendships to develop. Guests are supported to share experiences, build trust and enjoy a strong sense of belonging.

Home-Cooked Lunch

Each Club Day includes a freshly prepared two-course lunch. Eating together encourages appetite and routine - particularly important as people living with dementia can forget to eat without prompts and social cues.

Transport

Where possible, Hosts can provide transport and help families in rural parts of Sussex and Surrey where public transport is limited or unavailable

Supporting the Carer

At Tapestry, we recognise that supporting family carers is just as vital as supporting our guests. Alongside trusted respite, we provide ongoing wraparound support that reduces pressure, manages practicalities and keeps families fully informed.

Support begins with a personalised home visit to understand each guest's life story, interests, care and dietary needs, and any risks. This is followed by a no-commitment trial Club Day, with family carers welcome to attend initially to help ease anxiety and build confidence.

After each session, carers receive clear updates on wellbeing, engagement and any changes observed. As needs evolve, we continue to offer trusted guidance and signposting to specialist dementia organisations and statutory services - supporting families for as long as they need us.
